INVITATION

Ecodesign Initiative for Medical Imaging
1st Annual Forum

28 March 2012 – 11:00-17:00
Diamant Building
Bvd. A. Reyers 80 – 1030 Brussels, Belgium

The medical imaging companies participating in the Self-Regulatory Initiative (SRI) are happy to invite you to their 11th Ecodesign Steering Committee meeting which will be held on 28 March 2012.

Background

On 28 May 2008 COCIR presented to the Ecodesign Consultation Forum its first proposal for an industry-led Self-Regulatory Initiative. In November 2009 the methodology and the pilot project on ultrasound products were presented to the Consultation Forum, and comments were gathered for further improvement. Today, COCIR is submitting to the European Commission and the Consultation Forum the enriched Self-Regulatory Initiative documentation for medical imaging equipment (SRIv2) with a mature methodology, for official endorsement.

Objective

The objective of the meeting is to openly discuss about the methodology and how it will be applied to magnetic resonance imaging.

The following documents will be distributed prior to the meeting:

- Magnetic resonance Equipment (MRI) - Study on the potential for environmental improvement by the aspect of energy efficiency
- Magnetic resonance Equipment (MRI) - Measurement of energy consumption
- Ecodesign target for MRI for the years 2012/2017

Invitees

- Representatives from the European Commission (DG Enterprise, Energy, and Health & Consumers)
- Members of the Consultation Forum
- Companies involved in the Self-Regulatory Initiative (95% of the medical imaging industry)
- Other medical imaging companies not yet involved the Self-Regulatory Initiative

Registration

For logistical reasons, please confirm your participation **by 29 February 2012 the latest** by email to: Riccardo Corridori - Steering Committee Secretariat: **corridori@cocir.org** / +32 (0)2 706 89 66
